

UNIVERSITY ACCESS PROGRAM (UAP)

Our University Access Program (UAP) offers a number of benefits for Schools, Colleges and Universities.

The Benefits

Loan board scheme allowing the loan of a development board, or boards, to qualifying academic projects. (Usually limited to one per institution unless a project is of special merit). To use this scheme project tutors should contact us on the email below.

Discounted Lab Packs with boards, add-on modules and lab materials. Including Raggedstone1 we have packs with lab support materials and boards.

Visiting lecturer available free to give lectures at academic institutions. We give a lecture of an agreed subject with a commercial company view.

Student visit days - Students can come and be part of our working environment for a day. Get to know real life in a leading edge company "pushing design to the limit and beyond". Subject to availability and limited group size tutors should contact us for details.

Student discounted products— We offer up to 20% discount to students on our products on single purchases. Details of discounted FPGA Development Boards and other Modules can be found on our UAP website page.
